Tori Redding – Secondary Art
Erica Wagner – Media

Trixy Crowley – 1st Grade
Kira Polanco – Sec. and PE
Joe Rine – 4th – HS Choir
Keilah Thompson – Nurse
Kira Polanco – Math and PE

Inservice Training

Our teachers completed technology trainings on the View Sonic Boards and Nearpod. In addition to normal compliance training, we started a Biblical Worldview Series from the Colson Center. We will complete the training over the course of the year and start applying more Worldview training to our classes and students.

Health and Safety

Covid Protocols are similar to how we ended last year. Masks are optional. Even though the TEA and State is not requiring contact tracing, we are continuing to do that. Before school started we had 6 kids who had COVID or had been exposed. Those students are online. On Wednesday, we had 1 Prek student who attend the first day and tested positive the 2nd day. We called all of the parents and have sent the students home for the remainder of the week. We are hoping this is an isolated incident and will not continue throughout the year.

Catering Company

We are in the process looking for a new catering company. We hope to have that in place by the first week of September.

Title IV

We used our Title IV money through RRISD to obtain Stem Kits from KidSpark Education. We purchased 6 kits and students PK – 5th are starting the program this year. We also offered two elective classes for our Middle School Students.

In Middle School we also added Math Lab and Table Top Design as Elective Offerings.
