

# Kristi Roark

---

## PROFILE

I have taught students from Pre - K to High School in both public and private schools as well as directed church music and education programs for children and adults. I also work as Vice President of our family business, Roark Properties, to develop project designs for construction as well as manage employees and customer relations.

My greatest joy is working with young people to develop their talents and gifts to use for the Glory of our Creator and to help them maintain a Biblical Worldview and deep belief in Jesus Christ. Success is seeing them become adults who carry on the call of Christ to be salt and light in our world.

Recently my husband has been elected to serve as pastor of a church in Jarrell, TX where I am developing the music and children's education department.

My husband, Edwin and I have three children, Alexandra (2011), Benjamin (2015), and Caleb (2020), who are all graduates of RRCA. They have each gone on to have successful college experiences they were well prepared for, and have become adults who are each serving in some type of ministry. We are thankful for the vision the leaders of RRCA have had to impact young people in such a positive way. This school has been a blessing to our family and we want to see it continue to bless many more.
