ERISA 3(38) Investment Fiduciary

February 17, 2026

About IRON Fiduciary

An Offering By Creative Planning

Founded in 1994, IRON Fiduciary provides investment fiduciary and retirement solutions to a wide range of defined contribution and defined benefit plans in the ERISA space; and 403(b), 401(a), and 457 plans in the non-ERISA space. IRON Fiduciary is an accredited ERISA 3(38) Investment Fiduciary that provides comprehensive solutions to the retirement plan marketplace. IRON Fiduciary provides the plan with an Investment Policy Statement, and in concert with that Investment Policy Statement selects, monitors and replaces all investment alternatives for each retirement plan.

CEFEX CERTIFIED

We are an ERISA 3(38) Investment Fiduciary that has received a CEFEX accreditation. CEFEX-certified firms adhere to a standard representing the best practices in their industry. A successfully completed standards-based assessment results in certification. This is written assurance that the firm meets the requirements of the standard.

Comprehensive Retirement Plan Solution

Value for the Plan

- Most comprehensive outsource of the investment liability available
- Process — CEFEX (industry) certified
 - Litigation is blind to ERISA. Engagement of a discretionary fiduciary brings qualitative and quantitative process to the plan.
 - Courts have ruled that investment risk is measurably reduced with strong process.
 - Streamlined investment lineup
 - Duplicate funds in asset classes removed
 - Comprehensive lineup that offers the availability for broad based diversification and both risk and time automated options

Value for the Participant

- Process
 - IRON Fiduciary's process demands top quartile risk-adjusted performance metrics according to IRON's proprietary model. Participants will not stay invested in underperforming funds.
 - IRON Fiduciary's process demands the lowest investment net cost at the participant level.
 - Concise investment lineup covers US and International Equities and Fixed Income. Also includes participant "help me do it" options:
 - Risk-based options
 - Time-based options

Discretionary Investment Fiduciary Services

HOW DOES THIS WORK?

When IRON Fiduciary is engaged as the Discretionary Investment Fiduciary, IRON is responsible for all plan asset management, including:

- Selection, monitoring, and replacement of investment options beginning with a mapping of current investments into IRON's recommended investments.

WHAT DOES THIS MEAN?

- This is the most comprehensive transfer of plan sponsor liability for investment related issues available in the industry today.
- The trustee's responsibility shifts solely to monitoring the discretionary fiduciary.
- The plan sponsor is removed from the investment selection, monitoring and replacement process.

DELIVERABLES:

- IRON Fiduciary provides the plan with a set of differentiated deliverables:
 - **Investment Policy Statement (IPS)** - IRON's IPS is detailed, plan-specific, and is delivered directly to the plan sponsor. Other discretionary fiduciary service providers provide a generic IPS template that must be downloaded from the web, is not plan specific, and is not delivered to the plan sponsor.
 - **Quarterly Fiduciary Report (QFR)** - IRON's QFR is plan-specific and delivered to the plan sponsor. Most others are generic and not delivered.
 - **Quarterly Educational Newsletter** - IRON Fiduciary is one of the few that offers quarterly education via a newsletter. Our newsletter is platform-specific as to funds and returns.

Who Are the Players and What Are Each Player's Responsibilities?

PLAN SPONSOR

- Primary decision-maker
- Manage and administer the plan
- Hire and monitor service providers
- Ensure all fees are reasonable
- Ensure prudence in plan management
- Communicate to all plan participants

IRON FIDUCIARY DISCRETIONARY FIDUCIARY — INVESTMENT MANAGER

- Select investments that meet all of the risk-return and low-fee criteria and prudently maintain the recommended list
- Ongoing monitoring of investment choices
- Review and replace investments when warranted on a quarterly basis
- Communicate fund changes
- Prepare and distribute quarterly fiduciary reports, required disclosures and educational newsletters

TRUST COMPANY CUSTODY, RECORDKEEPING, & PLAN ADMINISTRATION

- Responsible for safekeeping of the plan's assets
- Settle all buy-sell transactions
- Value the holdings
- Provide periodic reports
- Maintain individual account records, when applicable
- Maintain compliance with applicable rules and regulations
- Conduct enrollment and education support
- Provide participant support through online and call center access

Plan Investment Cost and Performance Summary

Plan Name: RRCA

Platform/Tier: Index Core with Blend TDF CIT/Default Tier

Total Assets: \$2,958,455.45

Analysis As Of Date: 01/31/2026

Summary of Plan Investment Costs

	Current	IRON Proposed
Plan Assets with Expense Ratio Data	\$2,958,455.45	\$2,958,455.45
Total Investment Costs, Annually	\$7,640.18	\$2,657.87
Weighted Average Expense Ratio (Expenses are net of revenue sharing where applicable)	0.26%	0.09%
Total Cost Savings or (Increase), Annually:		\$4,982.31

Summary of Plan Investment Performance Analysis

Plan Investments	Annualized Total Return	
	3-Year	5-Year
Current Plan Investments, Net of Investment Fees	14.95%	9.41%
IRON Selected Plan Investments, Net of Investment Fees (if the Plan had utilized IRON 3(38) during the analysis period)	16.66%	10.54%
Performance Value (net increase/decrease in returns) using IRON 3(38)	1.71%	1.12%
Plan Investments	3-Year	5-Year
Current Market Value of Plan Investments	\$2,953,955.52	\$2,953,955.52
Current Market Value, if the Plan had utilized IRON 3(38) Selected Investments	\$3,087,858.72	\$3,108,923.79
Value from the IRON 3(38) Selected Investments - Net Increase (Decrease) in the Value of Plan Investments	\$133,903.20	\$154,968.27

Additional Data Points | Core Funds

(Funds/Assets Classes Underperforming - Duplicate Funds - Asset Classes Missing from Recommended Asset Classes)

Plan Name: RRCA

Platform/Tier: Index Core with Blend TDF CIT/Default Tier

Total Assets: \$2,958,455.45

Summary of Plan Investment Analysis – Additional Insights

Percentage of Plan Assets Underperformed over a 3-year Period ⁽¹⁾	95.08%
Total Plan Assets with a 3-year Performance Data	\$2,958,455.45
Total Plan Assets Underperformed over a 3-year Period	\$2,812,855.62
Percentage of Asset Classes Underperformed over a 3-year Period ⁽²⁾	88.89%
Total Number of Asset Categories Utilized in the Plan	18
Total Number of Asset Categories Underperformed over a 3-year Period	16
Total Number of Redundant Funds Utilized in the Plan Among Asset Categories ⁽³⁾	5
Total Number of Recommended Asset Categories NOT Utilized in the Plan ⁽⁴⁾	4
Core Fund Categories	3
Target Date Fund Vintages	3

Disclosures:

(1) The percentage of plan assets that underperformed over a 3-year historical period, as of the date reported, is the ratio between “the sum of the current value of all funds in the plan that underperformed, over a 3-year period, with those of respective mapped Creative Planning recommended funds ” and “the sum of the current value of all funds in the plan with a 3-year historical performance data” This analysis excluded Index funds, Stable Value/GIC investments, and Money Market Funds in the plan.

(2) The percentage of asset categories underperformed in the plan, over three years as of the date reported, is the ratio between the number of asset categories that underperformed with respective mapped Creative Planning recommended fund asset categories over the same three-year period and the total number of distinct asset categories utilized in the plan. An asset category is considered underperforming if the total assets (the sum of assets from all funds) in the category are underperforming with respect to Creative Planning recommend asset category, respectively. For this analysis, the Target Date Fund series is considered as one broad asset category. The excluded asset categories include Money Market, and Stable Value/GIC.

(3) Multiple funds that belong to the same asset category that exists in the plan were counted as redundant. It is the sum of such redundant funds among various asset categories utilized in the plan. This number excluded the Index funds, Target Date Fund vintages, Money Market Funds, Stable Value/GIC.

(4) The comprehensive list of IRON recommended funds included Core Funds (one fund for each of the asset categories - Large-Cap Value, Large-Cap Growth, Mid-Cap, Small-Cap, Foreign Large-Cap Growth, Foreign Large-Cap Value, Foreign Small and Mid-Cap, Emerging Markets, REITs; Short-Term Bond, Short-Term Corporate Bond, Intermediate-Term Core/Core Plus Bond, Intermediate-Term Government Bond, Treasury Inflation-Protected Bond, World Bond, High-Yield Bond, Convertible Bond, and Non-Traditional Bond), Asset Allocation Funds with different Stock/Bond ratios, Target Date Fund series, five Index Funds, and Cash Preservation Instruments such as Money Market Fund, Stable Value Fund, and Guaranteed Income Contract. The total number of recommended asset categories not utilized (missing) in the plan computed based on the difference between the comprehensive list of IRON recommended fund asset categories and the distinct asset categories of the funds currently being used in the plan. For this analysis, the Target Date Fund series is considered as one broad asset category.

Analysis As Of Date: 01/31/2026

This hypothetical asset-weighted investment cost analysis report compares the one-year cost of owning the current Plan level investments to the proposed Creative Planning recommended investments as of the date of this proposal. Creative Planning's proposed mapped investments are based on the comparable Morningstar Category and using Creative Planning's proprietary investment selection methodology. Current Plan level investments are based on the most recent Plan holding statement made available to Creative Planning. This report does not take into account any changes of investments, market fluctuation or cash flows in the value of investments for either the current Plan holdings or proposed investments. As a result, the estimated asset-weighted total costs for both the current and proposed investments may not accurately reflect the total costs to the Plan over the one-year holding period. The Expense Ratios are investments' reported Prospectus Net Expense Ratios and do not take into account any revenue sharing agreements or fee waivers that may be in place. Certain Investments such as Stable Value Funds, Guaranteed Investment Contracts and other unlisted investments are excluded from the computation. As a result, the estimated asset-weighted total cost for both the current and proposed investments may not accurately reflect costs for the complete Plan investments. Creative Planning's mapped recommended funds and the corresponding expense ratios are subject to change at any time. This report is prepared specifically for the Plan and is based on information provided by the Plan to Creative Planning. This report is provided to the Plan Sponsor and/or Plan Advisor in order to make an informed decision as it relates to the comparative cost of investments available in the Plan as of the date of this report. Creative Planning's Discretionary Investment Manager's fee has not been deducted from the above investment cost analysis. Creative Planning's advisory fees are described in our ADV Part 2. All expense ratios are provided by Morningstar® where available. Expense ratios not available on Morningstar are taken directly from the Plan's 404 disclosures. Although the information contained within this report has been obtained from sources believed to be reliable, there is no guarantee that the information contained herein is accurate, adequate, or complete. The tables, performance and other information shown are provided to you for informational purposes only and are not intended to be and do not constitute investment or tax advice nor an opinion or recommendation regarding the appropriateness of any investment.

*Expenses are net of revenue sharing where applicable

Total Assets: 2,958,455.45

Analysis As Of Date: 01/31/2026

This hypothetical performance report illustrates the estimated dollar returns for each of the Plan holdings over the stated historical holding periods (3-year and 5-year) and compares with the estimated dollar returns for each of Creative Planning's corresponding mapped recommended investments, respectively. The total estimated dollar and performance returns are asset-weighted based on the most recent Plan Holdings Report made available to Creative Planning. This report is hypothetical and only compares the historical performance as of the date of this report. This report does not take into account any changes of investments, market fluctuation or cash flows in the value of investments for either the current Plan holdings or proposed investments. This report does not take into account past changes in investments that Creative Planning has implemented on this platform pursuant to Creative Planning's proprietary investment selection methodology. Similarly, this report does not take into account any past changes that have occurred in the Plan Holdings. This report only reflects hypothetical returns for the investments as of the date of this report. As a result, the total estimated performance and dollar return for both the current and proposed investments may not accurately reflect the total estimated performance and dollar gains/losses of the overall Plan over the time frames in question.

The above hypothetical performance analysis is based upon Creative Planning's recommended investments, which are specific to the Custodian Product Platform being considered as of the date of this proposal. Creative Planning's recommended investments and therein security selection, and as a result, the corresponding performance is subject to change at any time. This report is prepared specifically for the subject Plan and is based on information made available to Creative Planning. The information is based upon the particular securities selected by Creative Planning Fiduciary, an offering by Creative Planning, LLC on the date appearing in the materials. This report is provided to the Plan Sponsor and/or Plan Advisor in order to help make an informed decision as it relates to the estimated comparative hypothetical performance of investments available in the Plan. This will provide the fiduciary with a perspective on the impact a difference in performance can make on the overall investment portfolio based on historical performance.

Future returns may differ significantly from the past due to materially different economic and market conditions. Investments involve risk and the possibility of loss, including a permanent loss of principal. Past Performance is not indicative of future results. Management fees that may include Plan Advisor's fee and Creative Planning's Discretionary Investment Manager's fee have not been deducted from the above. Therefore, all returns are gross of management fees. The advisor's advisory fees are described in our ADV Part 2.

All performance data is provided by Morningstar®. Although the information contained within this report has been obtained from sources believed to be reliable, there is no guarantee that the information contained herein is accurate, adequate, or complete. The tables, performance and other information shown are provided to you for informational purposes only and are not intended to be and do not constitute investment or tax advice nor an opinion or recommendation regarding the appropriateness of any investment.

- (a) 1-, 3- and 5-year returns are annualized
- (b) Market (Mkt.) value represents the current market value of plan investments, if the plan had invested using Creative Planning 3(38) selected investments during these historical investment periods
- (c) Performance represents the asset-weighted return of plan investments, if the plan had invested using Creative Planning 3(38) selected investments during these historical investment periods
